May 2005*

Come to an EPA Open House Two locations: Inchelium and Davenport

EPA is hosting two open houses to meet local residents and share information on its investigation of hazardous waste contamination in the Upper Columbia River. The study is called a Remedial Investigation and Feasibility Study (RI/FS). It will evaluate contamination caused by smelters, industrial activities, mining and milling operations, and other sources, and determine whether a cleanup is needed.

May 17, 6:00-8:00 PM
Inchelium School Cafeteria
1 Hornet Avenue, Inchelium

or

May 18, 6:00-8:00 PM
Davenport High School Library
801 7th Street, Davenport

We invite you to come talk with us and ask questions. The same information will be presented at both open houses, so you can come to the one that is most convenient. EPA staff will be on hand to discuss the sediment sampling that is under way and the fish tissue sampling scheduled for fall. We will give a short presentation on the project at 7:00 PM. For more information contact **Deborah Neal**, EPA Community Involvement Coordinator, at 800-424-4372 ext. 0115 or neal.deborah@epa.gov. TTY users, please call 800-877-8339.
